AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

- 1-27 (Canceled)
- 28. (Currently amended) A passive cardiac reinforcement device for constraining outward expansion of a heart wall of a patient's heart during diastole, said device comprising:
- a jacket constructed from a biomedical material, said biomedical material being <u>elastic and</u> radiopaque, and said jacket having an apical end and a base end and a predetermined size selected to surround an external surface of said heart.
 - (Canceled)
- (Previously presented) A device according to claim 28 wherein said jacket is sized to constrain diastolic expansion.
- (Previously presented) A device according to claim 28 wherein said material
 is formed in an open cell construction with a plurality of open cells defined by
 interconnected, elongated elements.
- 32. (Previously presented) A device according to claim 28 wherein said jacket is sized to be applied to the epicardium of the heart.

10/810,099 Reply to Final Office Action of August 1, 2006 Docket No.: 59013-331601 Page 4

- 33. (Previously presented) A device according to claim 28 wherein said jacket is sized to be applied to the pericardium of the heart.
- 34. (Previously presented) A device according to claim 28 wherein the biomedical material that is radiopaque is platinum, titanium, or stainless steel.
